ORDERING CODE

Follow the steps to specify your fixture, example:
MLED - 30K - 90 - 501 - MC - P

NOTES
1. For LED info see page 2.
2. Canopy matches the finish chosen.

*Cable info: Clear Cable. 0.120" outer diameter. Rated to 300V & 105°C.

FEATURES

Bruck has created a pendant lamp which masterfully sets the scene for a modern design with its clear simple cylindrical form and supreme German craftsmanship. The minimalist design of Cantara Glass is focused on the essentials: light that bathes the room with a warm glow of gold. The inside is hand-coated with composition gold. The lamp of the Cantara Glass is encased in a reflector made of hand-blown opal crystal glass. This distributes the light evenly and softly on the surface below.

HOUSING

The hardware is offered in matte chrome, black or chrome finish and seconds as the pendant thermal heatsink.
MOUNTING

- The pendant can be mounted from Bruck's field adjustable canopy. The standard overall cable length of 59" can be field-cut or specified when ordering. Overall cable length is measured and begins from top of canopy. See the decorative Junction Box Cover for open ceiling applications.
- Optional track mounting: Global Trac Systems, GEO track, ECO track / HALO® Power track, and Zonyx track. Overall cable length begins at the shoulder of the ECO/GEO adapter and the track center of the Zonyx adapter. Cable length measurement ends at the top of glass or to the mounting arms.
- Kevlar coated cable for easy cleaning, short circuit protection, no discoloration and fraying over time.

LISTINGS

- Listed to UL1598 and UL1574 (Suitable for dry locations only)
- Listed to CSA C22.2 #250.0 and #9.0
